

Dear Residents and Families,

It is hard to believe we are already in the second month of 2021! We hope you all have found success in your New Year's resolutions thus far and that this year is shaping up to be a great one for you and yours. There are so many positive changes happening currently that we have zero doubt that this year is going to continue to be better than the last.

Speaking of positive updates, we mentioned in last month's communication the commencing of our first COVID-19 vaccine clinics. We are thankful to report that many of our communities are already hosting their second dose clinics at this time, with all to hopefully be completed by the end of this month. We are also thankful to report that through the clinics hosted with CVS Health/Omnicare and Walgreens, we have had very little to no side effects reported for all of the consenting residents and team members that participated! We had an astonishing 90% of our residents company-wide register and receive the vaccines. We are very hopeful for the progress this will bring for our communities and all who are a part of it!

In addition to the many residents and team members at the communities that opted in to receive the vaccine - our leadership team at the Thrive Hive, the Vision Team - as we call them, including Thrive founder, Jeramy Ragsdale, were thrilled and thankful to be able to do their part in stopping the spread and received the vaccine as well. We are all very hopeful that better & safer days are soon to come thanks to this!

In mentioning our Hive leadership team, we wanted to shine a spotlight on the woman that helped lead this vaccination front, as well as the rest of our initiatives to ensure our residents and team are as healthy and happy as possible! Elaine D'Antonio, Director of Clinical and Compliance, started with Thrive back in November of 2020 and has been running full speed ahead from day one on ensuring our communities are operating with excellence in every aspect that effects the well-being of our Thrivers. Elaine has been a clinical leader for over 30 years and a Legal Nurse Consultant for 10 years and has served with an emphasis in the senior living space as the clinical and regulatory support for as many as 105 communities at one time! "I want to give back to the industry as much as possible, for as long as possible, and drive clinical excellence in every way possible!"

Elaine also possesses a Master's Degree in Nursing Administration and Advanced Practice Nursing, and additionally prides herself for her work as a Franchise Partner in the Juice Plus Company. We are so thankful for the influence she has already brought and continues to bring each and every day.

We can't conclude this letter without mentioning the love we have for all of you through supporting our Thrivers and our communities, seeing as it is happy hearts month! We are celebrating all of February with Valentines themed festivities in the communities and through the collection of our Thriver's Love Stories. We are asking you all to submit your loved one's Love Story to be featured in our series and help to spread the love through our community and abroad. You can even submit an old wedding portrait or a current couple/family photo! You can submit yours by visiting: www.thrivesl.com/love/

And, don't forget to then send a Virtual (Hug) Valentine to your loved one for the holiday! We will deliver these Valentines with a sweet surprise on your behalf over the holiday weekend and through the month of February. Send yours now at: www.thrivesl.com/virtual-hug/

We send you and yours our love this month and continued thanks for your support and trust in Thrive. We could not do what we love without you. Thank you!

Be well,
The Thrive Hive
