

Dear Residents & Families,

It's our favorite time of year in the communities! The decorations are up, the presents are wrapped, there is holiday music and cheer throughout the hallways, and plenty of things to be grateful for as we finish out 2021. Celebrations are in full gear with caroling, cookie baking, holiday parties, ballet recitals, trips to the local theater, and more. Our Convivium Directors are planning delicious feasts for Christmas day to fill our residents' bellies (and hearts) with love, and our Social Network Directors are gearing up with festivities to ring in the new year!

As we celebrate the holidays this year, we continue to follow all COVID-19 protocols per the Centers for Disease Control and Prevention (CDC) and local and state health departments to keep our residents and team members safe. As a reminder, if you are planning on taking your loved one out of the community for the holidays, please make sure to inform the local team of your loved one's departure and return date so the team can ensure residents are ready to go and also be prepared for their arrival when they return to the community. For guidance, we have attached the CDC's guide on enjoying the holidays and protecting your loved ones.

We are excited for what's to come in 2022. Our teams are currently working on ways to enhance the overall experience for our residents. Our goal is to continue to provide the best care possible along with plenty of joy, love, and laughter each and every day.

We at Thrive are grateful to have you as part of our family and appreciate your support throughout the year. May you have a very happy and healthy holiday season and a prosperous new year!

Cheers,
The Thrive Hive

The best way to keep your family and friends safe is to get vaccinated.

Wear a mask in public indoor settings if you are not fully vaccinated, have a weakened immune system, are in an area of high transmission.

Avoid crowded, poorly ventilated spaces.

Test to prevent spread to others.

Delay travel until you are fully vaccinated.

If you are sick or have symptoms, don't host or attend gatherings.
